Long-term agreements: specificity of provisions, execution and termination

Keywords: Long-term agreement; contract execution; price of goods; pricing; price indicator

Reform of general provisions of Russian legislation on contracts and obligations did not entail any legislative initiatives which would specifically deal with specific features of provisions, execution and termination of long-term agreements. In practice it would require stable business relations, foreseeability, justification and transparency of obligations and key conditions. To achieve that end several legal mechanisms discussed in this article can be implemented.

TOMSINOV, Vladimir Alekseevich
